Flag Retirement Ceremony held in Brooksville

Woodmen of the World held a flag retirement ceremony in Brooksville on Friday evening, August 15, 2014. Several members of the community joined local and state officials, veterans and Mains-Quinlin VFW members and the alumni and community band in honoring the most visible and readily identifiable symbol of the United States, the American Flag, as well as the men and women who have fought to protect the liberties, values and beliefs the American Flag stands for. Local veteran Ron Thornbury can be seen above saluting one of the stripes he placed in the fire as part of the ceremony. Other local veterans can be seen in the background continuing to cut apart the flag as District Court Judge Frank McCartney reads the historical significance of each part of the flag as it looks today and throughout its history. See page5 for more ceremony information.

While Joe McKibben was taking his usual “drive” last Sunday evening, his horse became frightened near the corner of Second and Upper Streets, and turning suddenly down Second threw Joe from his buggy; he became entangled in the lines and his horse dragged him about a hundred yards, breaking his collarbone, and bruising him up generally. He was able to be up on Monday morning.

Last Friday evening, James Overturf hitched his “two-horse rig” in front of J. W. Armstrong’s grocery. He had hardly turned his back upon the horses, when a pile of store boxes, just in front of them tumbled over, and frightened them; they broke their hitching strap and proceeded upon their journey without a driver. They turned the corner at the Joe Doniphan House and ran up Front Street, to the Methodist Church, then up Bracken to Fourth, from Fourth to Franklin, then down Franklin to Wm. Teegarden’s stable, where they ran into the fence; no damage, except a new top is necessary for the

buggy.

The May Term of the Criminal Court convened at this place on Tuesday, the 16th, Judge Perkins presiding, with the efficient Commonwealth Attorney, Hon. W. W. Cleary, at his post. The term was an unusually brief one—the docket being completed on the second day of the term.

Willis was elected as special Judge of the court, and H. C. Weaver, Esq., was sworn as Commonwealth Attorney pro tem, and Judge Perkins and Col. Cleary left for their homes.

The following persons were sworn as Grand Jurors, viz: John W. Bowman, foreman, R. S. Fishback, H. T. Lloyd, Jos. Norris, John R. Askin, Jesse P. Moore, H. A. Day, B. F. Laughlin, J. E. Crupper, Geo. A Legislative Perspective on the Kentucky General Assembly
State Rep. Mike Denham

Tobacco research for vaccine treatments

Several weeks ago, Kentucky received international attention when we learned that an Owensboro facility was the home of an experimental serum given to two Americans who had become infected with the Ebola virus in Africa.

While more work is necessary to determine the treatment's effectiveness, it nonetheless speaks well of our state that we can play a leading role in tackling what has been called the world's worst outbreak of this disease.

What makes this treatment unique is that it was produced using a plant Kentucky knows well: tobacco.

Because tobacco is relatively easy to manipulate genetically, it has proven to be an ideal incubator when it comes to producing large quantities of medicine. The Ebola treatment is just one of potentially many.

For example, the two University of Louisville researchers who helped develop the world's first 100 percent-effective cancer vaccine — which initially targeted cervical cancer — are now looking at tobacco to provide a less-expensive version of this medicine.

Other research in this field focuses on helping to block the spread of the HIV virus and providing significant quantities of flu vaccine should another pandemic arrive. Eggs are the incubators now used to provide most of the flu shots we receive.

The breakthroughs I mentioned are of course not the first time Kentucky has made news medically. Louisville was home to pioneering work in artificial hearts in the 1980s

and again in 2001, when surgeons successfully implanted the world's first that was self-contained.

Another major milestone was reached two years earlier, when hand surgeons in that city completed the country's first successful hand transplant.

More recently, Kentucky's researchers have been pushing boundaries in other areas as well.

For instance, both the University of Kentucky and U of L are at the forefront in helping those paralyzed learn to walk again. One study publicized in April showed the potential benefits of an electronic device implanted in these patients, while another advancement featured an exoskeleton that patients could control by thought. If you saw the opening of the World Cup, a representative from UK was there to help a patient give the ceremonial kick-off to that soccer competition.

In other medical highlights, UK recently celebrated the one-year anniversary of having its cancer center designated by the National Cancer Institute, a prestigious honor that has helped increase the school's research and treatment capabilities.

UK is also home to one of the country's 10 original Alzheimer's Disease Centers, and its pharmacy school was ranked by U.S. News & World Report as one of the country's top five in 2012.

One of that school's professors was recently recognized for his work in an area especially important to our state as it fights a steep rise in heroin abuse. He has designed a nasal spray that, assuming it receives FDA approval, can

quickly administer the drug naloxone, a miracle drug that can reverse overdoses if given in time.

It is worth noting that Kentucky has other prominent ties to medical research. Consider that we are the birthplace of not one but two scientists who received Nobel Prizes because of their work.

The first, Thomas Hunt Morgan, was a Lexington native who also happened to be great grandson of Francis Scott Key, the author of the "Star Spangled Banner."

Morgan received his award in 1933 and is considered one of the fathers of experimental genetics. Sixty years later, Phillip Sharp, who was born in Pendleton County, followed suit by winning his prize in that same field of study.

Kentucky may be a relatively small state, but as these examples show, we have had an out-sized influence when it comes to improving the world's collective health. There's every reason to believe that this trend will continue for years to come.

With that in mind, I'd like to end by highlighting the wonderful medical community we have here. Day after day, they provide us with outstanding service that serves our citizens well. They have saved countless lives and helped many others, truly improving our quality of life.

As always, I am interested in hearing your thoughts or concerns about this issue or any other affecting the state. My address is Room 329E, Capitol Annex, 702 Capitol Avenue, Frankfort KY 40601; or you can email me at Mitchell.Denham@lrc.ky.gov.

To leave a message for me or for any legislator, call toll-free at 800-372-7181. For those with a hearing impairment, the number is 800-896-0305.

I hope to hear from you soon.

Thoughts and Meditations from the Scriptures

ROBUSTNESS AND RESILIENCY

There are two ways to enhance our chances of survival: robustness and resiliency. Robustness is a measure of how much damage can be done to an organism and it will still function. Plants are robust because they can lose their leaves and the majority of their limbs and yet survive. Resiliency refers to the ability of an organism to adapt to changing circumstances. A tropical plant may be robust, but it won't survive in a harsh environment such as a desert. Human beings are hardy because we combine robustness with resiliency. We are robust insofar as we can survive without our teeth, could lose a few limbs, and some of our vital organs are paired, such as the kidneys and lungs, allowing us to survive with just one of them. Though not as robust as plants, we are more resilient, since we adapt well to change, as evidenced by our living in virtually every environment on the planet. Religion is one of the tools that help us to adapt. The Bible is full of advice on how to get along under trying circumstances. The early Israelites were enslaved in Egypt and then had to survive in the desert, and even once they were established as a nation, they were surrounded by hostile neighbors. This remains true for them today, and there is a lesson here on the value of resiliency and robustness. Increase your robustness by staying healthy and increase your resiliency by being adaptive. - Christopher Simon

Teach them his decrees and instructions, and show them the way they are to live and how they are to behave. - Exodus 18:20

Brooksville Methodist Church Rummage Sale August 30

The Brooksville Methodist Church will host a rummage sale on Saturday, Aug. 30 from 9-3 p.m. in the church picnic shelter. The proceeds will go to the Youth Outreach Program.

They will have food for sale in addition to clothes, shoes, church cookbooks, some antiques and lots, lots, more! Hope to see you there.

PRESBYTERIAN POTPOURRI Les Grooms, pastor Augusta Presbyterian

What a wonderful day to be in the house of The Lord! So good to be with our church family! Roger & Sherry Cheesbro visited with us today in Les' absence and brought us a lesson about the love of our God, and how His "love" affects and changes our lives.

There were 55 in attendance. Earl Bush led the worship, Susie Hargett led the singing, and Shelby England led Children's Church. And we had several visitors of which we were blessed!

Last week was another busy week at APC! Monday night was the weekly Soup Supper and Wednesday was the Bread Basket! It is always such a blessing to serve and fellowship with our community. We have had discussions that our "Coat Ministry" will begin sometime in October. And we are excited that plans are being made to have a library in the church as well. We are hoping to make available books of our Christian faith to those in our community who love to read.

We have just begun a new lesson in the Adult Sunday School. It was written by Max Lucado and is centered on the book of Ephesians.

We shared sad news of a special friend of our church, Jay Pritchard, who was involved in a wreck last week. We are asking for prayer for a speedy recovery.

GREETINGS FROM ST. JAMES

by Caroline Jefferson

Msgr. Dominic has changed the time of Friday morning Mass at St. Augustine's to 10 AM, but the Friday evening Mass at St. James remains at 7 PM. Parishioners of both parishes are encouraged to take advantage of these opportunities for increased prayer in their busy lives.

The winner of this past Sunday's drawing for the weekly \$100 raffle prize of our recent Ice Cream Social was Bobby and Angie Crawford! We congratulate them and wish all ticket holders good luck with the remaining 49 drawings!

Congratulations are extended to the Concord United Methodist Church on their 125th Anniversary Celebration of their congregation this past weekend, and we look forward to their many more years of service and commitment to rural Bracken County!

We cordially invite all to worship with us this Sunday, August 24 and then join us for our monthly Fourth Sunday Breakfast prepared by head chef Mike Branam and his volunteers. Prayer, fellowship and food make for an unbeatable combination!

Mark your calendars for Saturday, October 11, as we are once again preparing for the 7th Annual Public Square Rosary Rally to pray publicly for God's mercy and blessings on this country!

Letters To The Editor

Why would someone choose to roll down the window and thoughtlessly toss garbage out rather than waiting a few minutes and dispose of it properly when he or she gets home? And even more baffling, why would someone risk getting caught littering at a cost of \$500 or up to one year in jail? For the first offense, this is the consequence. The bottom line is that littering is a crime and there can be major consequences. On July 16th, the Bracken County Lady Bears basketball team, parents, and coaches picked up trash on a four mile stretch on highway 10.

Most of us don't litter. Most of us dispose of our trash properly and legally. The people of this county, however, who dispose of their garbage along the highways instead of in a garbage can, need to know and see consequences. While our group appreciates the opportunity to earn money through this program, we all agree that it's a shame those people continue to destroy the beauty of the roadways in the community the rest of us value.

Sincerely,
The Bracken County Lady
Bears Basketball Team

Flag ceremony showed the solemn respect due our American Flag

At Friday's, August 15, 2014, Woodmen of the World sponsored flag retirement ceremony, local veterans can be seen above preparing the flag for retirement. First, the grommets were cut from the flag. Secondly, the Blue Field of Stars was cut. Then, each strip was cut the length of the flag.

As each piece was cut, it was taken and gently laid into the fire.

While this was occurring, District Court Judge Frank McCartney read the historical significance of each stripe as follows:

#1 In honor of the thirteen original colonies and our forefathers who founded this great nation, we salute you.

#2 To the men who died in the War for Independence, we salute you.

#3 To those men who fell in the War of 1812, to preserve our freedom, we salute you.

#4 To the brave soldiers on both sides, The North and The South, in the Civil War, we salute you.

#5 We retire this stripe in memory of those who shed their blood in the name of hope and freedom in The Great War, we salute you.

#6 For our fathers and sons who died in the terrible battles of World War Two, Pearl Harbor, Midway, Iwo Jima, Guadalcanal, Normandy, and Berlin, we salute you.

#7 To the men of the First Marine Division, who, in a rear guard action at the Chosin Reservoir in Korea saved

their battalion and the lives of their brother Marines, we salute you.

#8 For the brave men and women of our armed forces who died on the fields of fire in Vietnam and whose names will live on forever on that hallowed wall, we salute you.

#9 For our commander in chief, who leads our nation in good times, and bad, we salute you.

#10 To our families who we love and respect, we salute you.

#11 To God, who we love and respect, we salute you.

#12 To the men and women of our armed forces, the Arsenal of Democracy and the Hammer of Freedom, we salute you.

#13 And last, to freedom, because without freedom

there is no honor, without honor, we are not Americans, and on this we vow, that as long as this flag flies, we salute you.

"And last we retire this blue field upon which are the fifty stars that represent the states of the greatest nation that God in his wisdom put upon this earth we don this with honor, dignity, and respect."

Once the reading was completed, everyone saluted and taps was played. Several flags were properly retired by fire as members of the community came forth placing the flags into the fire in both memory and honor of their loved ones and those who gave their lives so that we as Americans can live free.

TRASH TALK

by: Mr. Recycle Bin & Ms. Pick-Up Litterbug

606-735-9960

Howdy Folks! As we were headed to the Recycling Center this morning, a Styrofoam cup flew out of the bed of the truck in front of us! Had we been a law officer, we could have stopped the vehicle to advise them of the dangers of unsecured items flying out of a truck bed. It would also have presented an opportunity to explain that even though the item wasn't actually thrown out by the driver, littering occurred. This was unintentional littering, but it's the driver's responsibility to keep all items secured in the truck bed. Many times, litter occurs because of items thrown loosely in, or on, the bed of a truck, such as empty feed sacks, ice bags, beverage containers, loose cardboard and even gas cans! On occasion, we have witnessed loose paper flying from a recycling trailer that we were moving and this is really bad!! More than once, we have had to stop along the road to secure the loose recycling the best that we could because we litterly hate being the source of litter! Unintentional? Yes! But we understand how this type of littering occurs, and we all must do our best to prevent it from happening! An old cooler works well to contain the bags, beverage containers and farm sacks until a garbage can is available and we'll continue to do our best at accessing our trailer load before moving it! Due to some medical issues, normal schedules of the trailers will be interrupted for the next several weeks, but we'll try to adhere to normal rotation times! Your patience during this time is most appreciated!

Patience is also required on our highways with all area schools in session, and also in the many construction and repair areas, not only in our own county, but elsewhere.

Inside Out To Headline 2014 Whitetail Deer Festival

The Inside Out Band has been chosen to be the headlining musical act for the 2014 Rarden Whitetail Deer Festival being held September 5th, 6th, and 7th in Rarden, Ohio. Inside Out will take to the stage for a free two hour concert at 9:30 p.m. on Saturday, September 6th.

The Rarden Whitetail Deer Festival is a family friendly event and will feature not only all kinds of music, but also vendors of all types, various exhibits, 5K Run, Coon Shoot, Shot Gun, BB Gun and Archery Competitions, Pageants, Parade, Rides, and much more! For more information about the Rarden, Ohio Whitetail Deer

In order to better navigate the roadways in the early morning when children are being picked up for school and in mid-afternoon for drop-off, the best solution is to leave for your destination ten to fifteen minutes ahead of time or delay returning home by that amount of time. Frustrated, impatient and angry drivers can become dangerous to themselves and those on the road with them. Needless accidents occur, causing pain, suffering, and expenses. While this may be a little out of the range of the message of the 3 R's, we care about our citizens and want everyone to be safe, and not sorry, on our highways! A little planning can reap many benefits!

Also, with a little planning a home or office recycling center can be established that has far-reaching benefits! If you have procrastinated in your recycling efforts, now is a good time to 'fall' in step with other recyclers! The national recycling rate remains steady at 34.7%, but that number needs to drastically increase. With that rate of recycling, the equivalent of nearly 229 million barrels of crude oil, or nearly 20 days of all U.S. oil imports, is saved! It also saves Americans the equivalent of the annual energy consumption of nearly 14 million U.S. households per year! Just think of the increase in those numbers if 50-75% of folks recycled! Another fact is that in 2011, the amount of plastic bottles recycled provided the raw material needed to make about 7 million extra large t-shirts! To get your recycling started, pick one item to recycle on a regular basis and pretty soon you will be a master at RECYCLING, RE-USING and REDUCING to keep God's earth clean, green and beautiful! Be seen' you – *Bin & Bug*.

Local Augusta businessman hospitalized after accident

Jay Pritchard, owner of Riverside Tractor in Augusta, was hospitalized after an early morning accident on Friday, August 15th. According to Sheriff Howard Niemeier, Pritchard was traveling east on KY Route 8 when he swerved to miss a deer between long stretch and the first barn. When he swerved, his tires got off the edge of the road causing him to lose control and strike a tree. Augusta Volunteer Fire Department members were able to extract him from his truck and he was airlifted from the Augusta ballfield to UC Hospital. Pritchard suffered a broken leg and bruising. Surgery was performed on Saturday and he is expected to remain in the hospital for several days. Pritchard's dog, who travels with him, was ejected from the vehicle and is now being cared for by family members.

School Safety Tips

Provided by: Neider Reynolds, Coordinator
Bracken County Emergency Management

Kentucky has more than 1,200 schools. More than a 648,000 children and teens depend on buses to get them safely to and from school every day. They also depend on us to know the law and drive safely around school buses.

Here's the Law

- Stop for flashing red lights on a school bus, regardless of which direction you're headed.

- Continue your trip once the flashing lights stop and the bus starts to move.

- Violations can lead to a \$1,000 fine.

Safety Tips for Motorists

- Obey the posted speed limit.

- Fines can be double in school zones.

- Keep an eye on children gathered at bus stops.

- Watch for children who might dart across the street to catch the bus.

Safety Tips for Students

Respect your school bus driver and follow these rules:

- Stand far back when you are waiting for the bus.

- Sit still so the driver can pay attention to the road.

- Look both ways if you

have to cross the street after getting off the bus, or wait for the driver to signal it's safe to cross the street.

Here's the Law: Pedestrians

- Yield to vehicles on the roadway if you cross the street at a place other than a marked crosswalk or pedestrian tunnel or crossing. If you're hit while jaywalking, the driver may not be liable, and his or her auto insurance may not cover your injuries.

- Stay on sidewalks and the right-hand side of crosswalks. Drivers are supposed to yield the right of way to pedestrians in crosswalks.

- If the road has no sidewalk, walk on the left side of the road facing traffic.

Pedestrian Tips

- Always cross at intersections. Look left, then right, then left again before proceeding.

- Look for traffic when stepping off a bus or from behind parked cars.

- As a passenger, get in or out of a car on the curb side of the street.

- Make eye contact with drivers before you cross the street.

Augusta Cross Country Kicking Off New Season

In the fourth year since the program's return, Augusta's Cross Country team has been hard at work well before the school year even began. The team is coming off the heels of being represented by a runner in the State Championship Meet for the second consecutive year last season.

The high school team has similar numbers to last year with six runners, all male. Nick Zeidler, Augusta's only senior this season, is returning for his second year. Zeidler's best time last season came in the final meet of the year at the Region 5 "A" Championship where he ran a 22:01. "We need Nick to at least run around 20:00," Coach Tim Litteral stated. "I don't know exactly what type of expectations Nick has in his mind, but I know he wants to improve on last season." Camryn Snapp, the team's lone junior, has ran in the State Championship the last two seasons. He placed fourth in the Regional Championship and is a contender to win the Region 5 Class "A" Championship this season. Last year, he placed 32nd in the State Championship Meet, running an 18:12. His best time of the season came in at 17:42. "Camryn is a hard worker and expects everyone else to put in the same effort as he does, which is what makes him a good leader," Litteral said. "By the end of the season last year, he was consistently running under 18:20. He already seems to be ahead of where he started last year, and we're hopeful he can consistently run in the 17:00s this year."

After the two upper-classmen discussed above, the team has four freshmen. David Reed has been with the team for three years. He ran several meets as a varsity runner his eighth grade year and competed in the Regional Meet, where he ran a 5K in 21:58. This season will be Rhys Todd's first with the Panthers, as he transferred from St. Pat to Augusta last season. "We need Rhys and David to both be sub 20:00 in order for us to be successful as a team," Litteral said. "I've been encouraged with what I've seen from Rhys in practice and I really feel David has the potential to be a

big help to us." Two other freshmen, Jon Barrett, who was not on the team last year, and Adam Sallee, are both having to overcome injury. "Jon started out dealing with a foot injury, but with the doctor's approval, worked through that and continued to practice," Litteral said. "Adam has been told to sit-out a week and rest his foot, but hopefully we will have him to start the season. Because we only have six runners to start with, and it takes five runners to constitute a team, they're both very important to us."

What has taken a hit is the middle school program. After having approximately twelve runners last year, seventh grader Seth Fouts is the only middle school runner for Augusta this season. "I hate that Seth is always going to have to run as an individual, but if he puts his mind to it, I feel like he can have a successful season. We had four eighth graders last year who have moved onto high school, a few decided not to come back out for us, and three or four moved out of the district," Coach Litteral explained. "Once again though, we've had more than 15 students in grades 3-5 come out for our elementary program, so we hope this will help build the program for the future by exposing them to the sport and acclimating them to running early on."

According to Coach Litteral, one of the team's primary goals is to qualify for the State Championship as a team, something the program has yet to do in the three prior years. "If we can stay healthy, I feel like that is a goal within reach as long as they're willing to put in the work to achieve it," Litteral said. Augusta's middle school and high school teams will open the season on August 25 at the Opening Day Invitational in Pendleton County, followed by the Ryle Invitational in Union, KY, on August 30.

**Judge McCartney Announces His Candidacy
to Continue as District Judge for Bracken,
Fleming and Mason Counties**

Judge Frank McCartney is pleased to announce his candidacy for District Judge of the 19th Judicial District which is comprised of Bracken, Fleming & Mason Counties. After Judge W. Todd Walton, II, retired, Judge McCartney was appointed by Governor Steve Beshear on February 1, 2013 to fill the remainder of Judge Walton’s term.

While on the bench, Judge McCartney has implemented two new programs as authorized by statute, to hold accountable those individuals convicted in the criminal and traffic courts: First, the “pay or stay” program provides a period of 6 months to pay a fine, and if not paid in that time, the jail sentence can be imposed. Second, he adopted into the local rules a supervised probation program—paid for by the defendant at no cost to the taxpayer—where those who qualify are placed on probation for an offense. The KAP probation officer ensures compliance with the terms of probation and the defendants can be held accountable if they fail to do so. Judge McCartney has continued to support and utilize the Court Appointed Special Advocate (“CASA”) program, established by Judge Walton, to assist the court in dealing with the large number of juvenile cases and the needs of the children involved.

Judge McCartney works with the court officials in all three counties on a daily basis and has proven by his experience and abilities that he is well suited for this judicial position. Prior to being appointed by the Governor, Judge McCartney served for over 37 years as county attorney and assistant county attorney for Fleming County; was recognized by two different Kentucky attorney generals for his distinguished service as a prosecutor; was awarded a K.I.D.S. Award by the Kentucky Cabinet for his service as County Attorney; and was in private practice for 39 years with the office of Suit, McCartney, Price, Price and Ruark in Flemingsburg, Kentucky.

Judge McCartney is a graduate of Fleming County High School, and received his undergraduate and law school degree from the University of Kentucky. He is a member of the Flemingsburg Christian Church where he has served as a church elder for over 30 years. He is a commissioned minister by the Christian Church Disciples of Christ, Kentucky Region. He has been married for 43 years to Marsha McNeill McCartney, and they have two children, Rachael (Jason) Benjamin and Laura McCartney, and one grandchild, Louisa Evelyn Benjamin.

Judge McCartney appreciates having the opportunity to serve the people of the 19th Judicial District. The position of District Judge requires a great deal of time and commitment. Court is held each week on Monday and Wednesday in Mason County, Tuesday in Bracken County, and Thursday in Fleming County. On Fridays the District Judge hears trials in one of the three counties, and then is also on call after hours and on weekends.

Judge McCartney is grateful for the assistance that he has received from all who work with the court system. He has the experience and ability to continue as District Judge, and is committed to serving all who come before him with fairness, equality and justice under the law.

Judge McCartney asks for your vote and support in the November 2014 general election. You are invited to visit Judge McCartney’s Facebook page — just search for “Keep Judge Frank McCartney.”

Paid for by the Committee to Reelect Frank H. McCartney District Judge, Daryl Grannis Chairperson, and Tim Eldridge, Treasurer.
